

Hello everyone,

The Ministry of Education requires us to report on our progress relating to our FSL Framework goals. For this reason, the FSL Framework Committee has developed two surveys to gather information re **Goal #3: We will increase parents' awareness and knowledge of educational, extracurricular and career opportunities available to their children as a result of studying French to Grade 12.**

Purpose of Survey: to determine if we have achieved our goal and where we need to make improvements for future work

Who: One survey for **all LDCSB parents** and another survey for **Grade 9 & 10 students**.

Timeline: We will be launching the survey the week of **April 24th and closing the survey on May 19, 2017**

How you can support this:

Elementary schools:

This pertains ONLY to the parent survey, you will not be distributing the student survey

- Survey links will be included on the board webpage and pushed out to your school websites by Mark Adkinson
- Include the information in your school newsletters or on school websites
- Send an email to your school community (if you already have the means to do so) which includes the link

Secondary schools:

Re: Parent survey

- Survey links will be included on the board webpage and pushed out to your school websites by Mark Adkinson
- Include the information in your school newsletters or on school websites
- Send out a Synervoice message notifying parents of the survey
- Information flyers for parents will be printed and sent to schools to be included with mid-term reports (April 26th) NB: Photocopies will be sent to schools on Monday and Tuesday through the courier, schools whose courier dates are post Tuesday will have the flyers delivered to their school early next week.

Re: Student survey

- We ask that **ALL grade 9 & 10 students** (not just the ones currently enrolled in French courses) complete the survey during class time. Please make arrangements with regards to computer access and homeroom teacher notification to allow for this to happen before May 19th.
- Survey links and QR codes will be provided for you to share with the teachers who will be supporting the completion of the survey with their students.
