

Ms. Schonberger's Grade 6 Newsletter June 2019

Dear Parents/Guardians,

June is a very busy month as we wrap up our year and look forward to summer vacation! I can't believe it is June already and that the school year is coming to an end. The students will busy this month as we continue to learn and finish up all of the learning tasks and units, as well as all the fun activities planned. We will also be concluding our Classroom Economy with a special ceremony where we finalize our bank books and calculate who is our top 5 Super Savers! Each of these top savers will receive a prize of some sort. The top saver will be rewarded with title of 'president' of the class party committee, receive some special gifts including a lunch with the Mayor and the Economic Development Team at the Town Hall. We will also be having a 3rd year university Accounting/Business student come in to audit their bank books and talk about studying business at the post secondary level plus some different career opportunities in business. I will also be teaching the students how credit cards work and introduce the power of saving and investing (interest %). We will also have our last class auction. If anyone could be so generous as to donate to it, I would greatly appreciate it!

I have really been blessed to teach each one of your children this year. We are like a little family out here in the 'Cottage'. I thank you for all of your support throughout the year and wish you and your families a great summer holiday. I will never forget this class. They each have such unique and special gifts to offer. It has been a great year and a privilege to be their teacher. Should you have any questions or concerns please feel free to contact me! I wish you all a safe and happy summer!

Ms. Leanne Schonberger

Learning at a glance....

Math: Once we are finished completing the Probability Unit, we will start our Financial Literacy week where students will be applying many of the math concepts that we have learned throughout grade 6 as we close up our Banks and finalize our bank books in our Classroom Economy.

Language: Students wrote Passion Prayers in May and they will be read over the announcements throughout of June. Students will also be writing a Summer Adventure narrative story and creating an end of the year memory lap book.

Science: We have just completed the Air and Flight unit and students will be able to investigate and be led by their curiosity as they complete a Passion Project. (Some will choose to definitely connect their passion for science and language in this fun learning activity).

Social Studies: We will continue to learn and complete how Canada interacts with the Global Community unit, specifically about fair trade, Canada's trading partners, and the working conditions around the world. There will be test on this the first week of June (see their agendas).

“For I know the **PLANS**
I have for **you**”
declares the **LORD**
“plans to **PROSPER** you
and not to harm you,
plans to give you
HOPE and a
FUTURE.”
Jeremiah 29:11
